March 4, 2022

To Whom IT May Concern

The College of Science and Technology is opening for face to face teaching for Spring Semester 2022 from April 1, 2022 for students. The online teaching has commenced from February 1, 2022 and some of the students has expressed their difficulties to undertake the online teaching due to problem with internet connectivity. Some final year students have raised their concern on the requirement of laboratory facilities to perform their final year research works mandated to be completed by mid of May 2022. Based on these concerns, the college has decided to facilitate these students back to the campus upon the verification by the respective departments. The list of the students certified by the Dean of Student Affairs is attached for ready reference and kind consideration.

The College would like to request the concern to kindly facilitate their travel as per the Covid Protocol.

Sincerely,

(Dr. Cheki Dorji)
President
